

## ALLA FRANCE s.a.r.l.

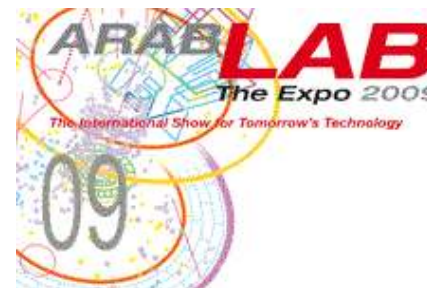

Zi du Bompas F -49120 Chemillé (France)  
Phone +33 2 4130 5508 Fax +33 2 4130 3467

Founded more than a century ago, and with a long experience in metrology, calibration and glass manufacturing, ALLA FRANCE proposes instruments for a wide range of industries around the world, such as industrial, chemical, petroleum & dairy laboratories, research centers, educational bodies, food industry, wine & drinks industry, refrigeration applications & blood transportation & storage.

From our range, choose from glass instruments such as our environmentally friendly Bio-temp® thermometer range, all types of commercial grade hydrometers and thermometers, high precision instruments manufactured according to ASTM-NF-BS-DIN-ISO official standards, electronic instrumentation (digital thermometers, hygrometers, pH-meters), infra-red thermometers, liquid crystal thermometers, refractometers, timers, pipetting accessories & graduated glassware, as well as Official or Traceable Calibration Certificates according to EN ISO-9000.

ARAB LAB 2009 is the ideal opportunity for Alla France to showcase the high precision ranges from our production, and by so doing to develop conversations during the exhibition with companies that have an indepth knowledge of certain market sectors, and the capability to develop country-wide distribution.

General Manager  
Jean-Marc Alla
