

Innovative Products for Your Environmental Laboratory.

Reduce labor and improve the quality of your results with lightweight, disposable BOD bottles.

Reduce labor, conserve water and improve the quality of your BOD testing with disposable BOD bottles from Environmental Express. These lightweight 300mL disposable bottles are unbreakable and inherently clean. Start each BOD with a fresh, clean bottle and never worry about carryover contamination or soap residue. A special oxygen barrier coating ensures equivalent results to standard glass bottles.

Disposable BOD bottles are approved by the U.S. Environmental Protection Agency. Visit our web site to review a study performed by an independent laboratory comparing our bottles to traditional glass bottles or to order a free trial pack.

For details visit the BOD Testing section of our web site http://www.envexp.com/prodlines/BOD/BOD_Testing.
