

# Innovative Products for Your Environmental Laboratory.

**Totally automated metals digestions are faster and more accurate than ever with the AutoBlock from Environmental Express.**

**Advantages and Features Include:**

- Accurate, automated, controlled addition of concentrated acids and reagents.
- Easy-to-program, full color, touch-screen controller.
- Heating and cooling in a contaminant-free HEPA filtered environment.
- Performs up to three digestion procedures simultaneously.
- Teflon® and other corrosion-free materials are used in AutoBlock construction.
- Disposable vessels for contaminant-free digestions.
- Digest up to 54 samples simultaneously.
- Bench top operation with no fume hood necessary.
- Electronics are completely isolated from the harsh digestion environment.
- Controller automatically logs and records each step of each digestion process.

*For details visit the Metals Digestions section of our web site and go to AutoBlock, <http://www.envexp.com/list/AB/AutoBlock>.*
